O. WASTE MANAGEMENT Delivered article  Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it becomes waste?  No  Is reuse possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is material recovery possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes  Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.		
Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it becomes waste?  No  Is reuse possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is material recovery possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes  Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.	Other information:	
Is reuse possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is material recovery possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes  Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.	10. WASTE MANAGEMENT  Delivered article	
Is reuse possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is material recovery possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes  Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it become	s waste?
Specify:  Is material recovery possible for the whole or parts of the article when it becomes waste?  No Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes Specify:  Thermal Recycling:  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes Specify: Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	No	
Is material recovery possible for the whole or parts of the article when it becomes waste?  No Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes Specify: Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes Specify: Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Is reuse possible for the whole or parts of the article when it becomes waste?	
Is material recovery possible for the whole or parts of the article when it becomes waste?  No  Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes  Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	No	
No Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes Specify: Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes Specify: Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Specify:	
No Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes Specify: Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes Specify: Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste		
Specify:  Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes  Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Is material recovery possible for the whole or parts of the article when it becomes waste?	
Is energy recovery possible for the whole or parts of the article when it becomes waste?  Yes  Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	No	
Yes Specify: Thermal Recycling. Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling? Yes Specify: Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Specify:	
Yes Specify: Thermal Recycling. Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling? Yes Specify: Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste		
Specify:  Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictiions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Is energy recovery possible for the whole or parts of the article when it becomes waste?	
Thermal Recycling.  Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Yes	
Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?  Yes  Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Specify:	
Yes  Specify:  Restrictiions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Thermal Recycling.	
Specify:  Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?	
Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.  Waste code for the delivered article when it becomes waste	Yes	
Waste code for the delivered article when it becomes waste	Specify:	
	Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.	
	Wests and for the delivered ertiple when it becomes wests
